"Lauren Synger is a joy to work with. Her range as a character actor is wonderful--from sweet ingénue to hippie earth mother to cynical, charismatic, many-layered despotic ruler. And not only is she amazingly versatile as a voice actress, but she is a consummate professional, there when she says she'll be there, on time and ready to work!"

– Tamora Pierce, Author

"Lauren is quickly becoming our "go-to" for voice overs. She is on our very short list of dependable voice talent, because she continually delivers quality work on both our longer-term projects and on projects with extremely tight deadlines. Lauren is a true professional who is knowledgeable, dependable, efficient, and affordable. I'm always happy to work with Lauren, as she consistently performs at the highest level. I highly recommend Lauren Synger to anyone looking for superb voice talent."

– Steve G., Pearson

"Recently I had the pleasure of working with Ms. Synger as a voice artist we hired to read a short story produced by our weekly audio fiction magazine, the Drabblecast. Ms. Synger was exceptional in all regards. She was easy to reach, timely in her responses, and performed the role with flair and panache. Here are some audience responses from within just the first week—

*"I can't even begin to tell you how impressed I am with the narrator's skill at saying the groom's name (alien name, very difficult to pronounce.) In fact, the narrator was all around stunning..."*

– Dreamrock

*"I'm going to have to practice saying the groom's name. Very impressive. Superb Voice acting. I really hope we hear from her again..."*

– Mr. Shadowboxer

*"Very entertaining. Lauren Synger did a top notch job narrating. Hard to beat."*

– TBaker

*"Awesome, Lauren's narration made that story for me."*

– Phenopath

*"I agree, tremendous charisma in the lead role. If Norm takes a narration break, he sure doesn't skimp on the sub. And he's got mega-shoes to fill, so that's saying something. Again, another great, solid non-Norm read, maybe the BEST."*

– Richmazzar

*"This may be one of the best read Drabblecast ever. Excellent voice acting."*

– Moonowl

"I would highly recommend Ms. Synger to others seeking superlative, versatile voice work for story-telling projects. She was a delight to work with and exceeded our very high expectations.

– Norm Sherman: Chief Editor, Production Manager, The Drabblecast Podcast

"I have spent much time searching for a proper actress. When I heard Lauren's demos I immediately found out she is the one I would like to work with. She possesses a unique combination of talent, voice-actress skills and professionalism. She provided the voice talent, and production for the first phase of my project. I am happy working with her and I hope we will keep on working together during the next phases of my project."

– Dancho Atanasov: Bookvaria Project Director

## **Industrial**

"Our experience with Lauren Synger was an excellent one. The project in question entailed a lengthy voiceover for our new corporate video, with Hobin Studios doing the sound production/engineering. The read itself was 6-7 pages long, involved some pretty tricky and complex phrasing, and probably contained more than our fair share of technical jargon, since we participate in several tech sectors. Lauren showed up having obviously practiced the VO work well ahead of time. She was a pleasure to work with and direct. And, astoundingly, she essentially nailed the read the first time through. As a result, I would highly recommend Lauren to anyone requiring a real professional."

– John Hoeschele Marketing Communications / Government Relations Manager, Anaren, Inc.

## **Promos**

I'm honored and very proud to be a Synger Productions client!! The Best is still yet to come from this Company! Continue to Rise!"

– Mr. Devan, Prince of Hype-

"Lauren is by far the most experienced and talented voice actor our station has worked with. She's never had problems understanding exactly what we want and never disappoints. If you're looking for a flexible, professional voice for your project(s), look no longer."

– DJ Ares, ShoutDRIVE.com
